

# LOOPO

The miniature video player

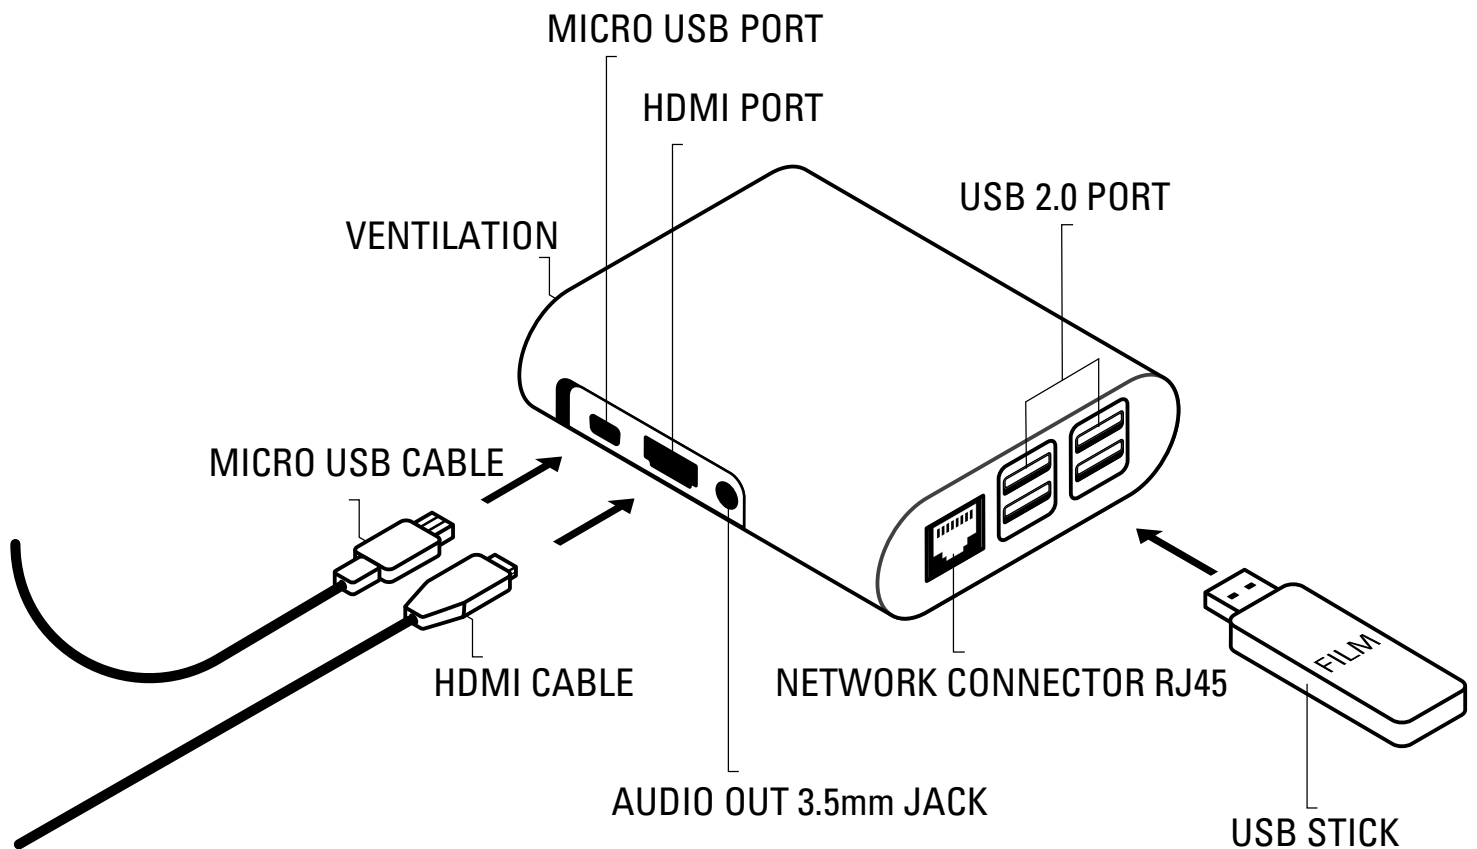

The basic idea behind LOOPO is its loop function and ease of use. Thanks to its low power consumption and fully automatic operation, LOOPO is the perfect player for museums, trade fairs, galleries and public spaces.

- Fully automated operation:  
Once the LOOPO is connected to a USB stick, it plays videos in order of their file name (alphanumeric).
- Compact design and silent operation
- Low power consumption
- Optimised for the reproduction of H-264 coded videos

# LOOPO

The miniature video player

- Resolution: up to 1080p / 30fps
- Playable file formats: .avi, .mov, .mkv, .mp4, .mv4
- Video codec: H264
- Connectors:
  - USB 2.0
  - HDMI output
  - Audio output: -3.5mm jack
  - RJ45 network connection (optional extension)
- Note: The audio output occurs in parallel via the HDMI port and the 3.5mm jack audio output.
- Dimensions: 89 mm x 70 mm x 24 mm
- Input voltage: DC 5V max. regulated, 2A

For media playback, you need a USB stick (minimum USB version 2.0, 16 GB max, file system: NTFS).

Use the supplied AC adapter only. When using the machine, ensure it is properly ventilated. The LOOPO is designed for indoor use only and should not come into contact with moisture or be used in a humid environment.
